BRING HIM HOME

A Twin Flame Love Story

Life had caused their paths to cross once before, but it would take the magic of synchronicity to reunite them.

Experience the true story of a charismatic author's twin flame love affair with an extraordinary woman. When he is divinely guided to meet the woman of his dreams, his immediate attraction to her transcends her physical beauty. Very quickly their minds, hearts, and souls become utterly intertwined as the two lovers embark on a transformative journey of self-discovery to unite the divine masculine and feminine energies held within. Their electrifying passion, combined with powerful kundalini energy and courageous vulnerability leads him to a place, unlike anything he has ever experienced.

Plagued by a series of failed relationships and inspired by the depth of his feelings for this enigmatic woman, he pledges to purge himself, once and for all, of his fear to love and be loved by another. Their sacred union, while tumultuous is oftentimes stunningly blissful and mystical; a catalyst to heal the deep wounds that he had carried for too long.

Will his commitment to love be enough to *Bring Him Home*?
